

7.3.2020

The additional information about the spread of the new type of the coronavirus disease:

Ordered quarantine after returning from a stay in Italy

Dear parents,
the exceptional measures by the Ministry of Health of the Czech Republic for all people returning from Italy are as follows (as of 7 March 2020):

All citizens and aliens with permanent or temporary residence staying in the territory of the Czech Republic for more than 90 days or being employed in the Czech Republic who return from Italy to the Czech Republic as of 7 March 2020 are ordered to report immediately this fact to their general adult or children and youth practitioner by phone or other remote means of communication without a personal contact after their return to the Czech Republic. If they do not have a registrating general practitioner, they report this fact to any general practitioner for adults or children and youth.

All general practitioners for adults and children or youth are ordered to impose a quarantine of 14 days upon all citizens and aliens with permanent or temporary residence staying in the territory of the Czech Republic for more than 90 days or being employed in the Czech Republic who return from their stay in Italy to the Czech Republic as of 7 March 2020 according to Act No 258/2000 § 2, par. 7 a).

If no other measures follow, your children will be allowed to start their school attendance on the 15th day after your arrival from Italy.

Bc. Monika Ženíšková, headmaster 22. MŠ Plzeň
